Warranty protection for your vehicle, peace of mind for you.

A modern car is an extremely reliable machine but it is also an extremely complex one, with thousands of sophisticated moving parts. The older a vehicle becomes and the more miles it drives, the higher the risk of mechanical or electrical failure of these parts becomes.

This means that, should anything go wrong, the cost of repairs could come as an unpleasant surprise. In fact, when labour charges are added, even the simplest of problems could land you with a considerable bill.

Unfortunately, these repair costs can often come after the manufacturer's warranty has expired.

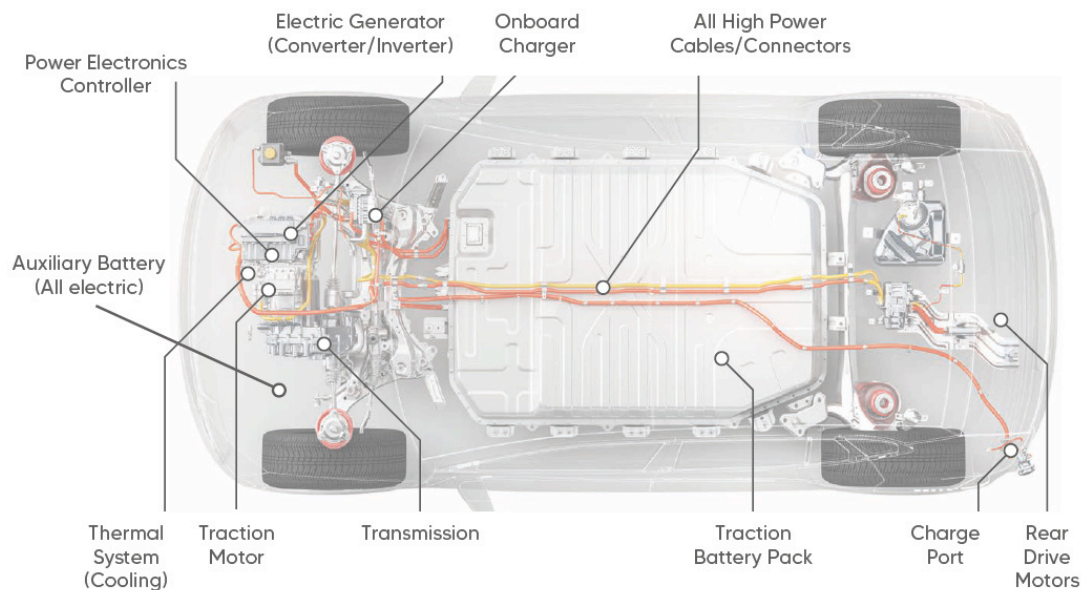

Car360 Warranty protects you against these unexpected costs and is designed to get you back on the road quickly and easily.
